Mrs. Louise Schwerdtfeger's "CASA de BEGONIA"

1450 Cantera Avenue Santa Barbara, California

1954

THE HOME OF OLD FAVORITES and NEW INTRODUCTIONS SPECIES and HYBRID BEGONIAS

FOREWORD

I wish to thank the many begonia growers and collectors for their past patronage, and to greet those of you who will be ordering for the first time.

Having grown and collected begonias for more than twenty years I can guarantee my stock to be of the best. Most of the species are strong plants grown from seed. The propagation of the varieties is accomplished without benefit of artificial heating. Constantly adding new species and hybrids, I shall be happy to answer inquiries on begonias other than those listed and can possibly supply you.

Except for the construction of ever-needed additions to the Nursery, which is done by my husband, I do all the growing and shipping. So may I ask you to be patient when ordering and plan to give at least ten days time to fill your orders.

If you are in the vicinity you would be most welcome to visit us and see begonias as they grow on the hill overlooking the blue Pacific. We are located five miles West of Santa Barbara, in the Hope Ranch Park. Telephone 4913 for directions in finding us.

PLEASE READ BEFORE ORDERING Terms of Sale

Please make all remittances payable to Louise Schwerdtfeger. No C.O.D. orders. California residents please add 3% Sales Tax. Minimum order \$3.00. Small orders shipped Parcel Post. Special Delivery (45c) assures no delay at terminals. Large orders sent Express Collect. All orders acknowledged as soon as received. No substitutions unless notified to do so Begonias listed are from 2½" or 3" pots, with well established roots. Each plant is correctly labeled and packed in damp moss. Plants guaranteed to arrive in good condition, if found unsatisfactory return immediately and satisfactory adjustment will be made and postage paid.

*REX BEGONIAS

Rex begonias vary in price according to colour and form.

Seedlings	.35,	8 for \$2.00
Named varieties	.75,	4 for \$2.50
Spiral leaf	1.00,	2 for \$1.75
Unusual and colorful	1.00,	Rex miniatures 1.50

My collection of rexes contains many of the Western hybrids never before on the market. State choice of colour, form and type of growth, when ordering. Green, silver, bright colored, spiral-leaf, compact or tall growing.

RARE and UNUSUAL BEGONIAS

The following begonias are rare, many of them NEW on the market. Since stock is limited can only take advanced orders. Information and special cultural data given with each plant. Write for price.

B. Griffithi, B. goegoensis, B. sementacea, B. crispula, B. Paulensis, B. Cathayana, B. luxurians, B. Lemminghei, B. Versicolor, . Kuhlmani, B. Leibmanni, B. hemsleyana, B. laciniata and variations, B. Allenia, B. digitata, B. convolvulacea, B. Bartoria, B. Picta, B. Frobelli, B. manicata aureamaculata, B. manicata crispa, B. manicata-aureo-maculata crispa.

FIBROUS BEGONIAS

ACERIFOLIA. Thick-stemmed, shallowly lobed leaves, white flowers	
ACUTANGULARIS. Cane-type angular stem. Bronze leaves, red under. White	.85
X ALTO-SCHARFFI. (Woodriff) Entirely covered with soft red hair. Pink	1.00
ANDINA. Slender stems, brownish green foliage. White flowers	
X ARGENTEA-GUTTATA. (Lemoine) Silver spotted foliage. Creamy white	
* BENNETT RUBRA (Robinson) Cane, medium, silver spots. Salmon-pink * CHIALA (German seed) Dark green red backed Greenish white flowers	1.00 1.00
	1.00
* CHIALA ROSEA. Similar to above with pink flowers	.95
CHIVATOA. Thick stemmed, shiny lobed foliage. Loose clusters of pink.	
COCCINEA. Cane-type, angel-wing smooth leaves. Coral-red flower clusters	
COMPTA. Cane-type Gray stripping along midrib, red back. White flowers CUSPIDATA. Costa Rica. Glossy foliage, well branched.	.85
DICHOTOMA. Thick stemmed, few branched, hairy leaves, white flowers	
DIPETALA. Syn. Mrs. Kimball. Erect thick stemmed. Soft pink flowers.	
* DROSTI (Bower) B. Scharffi seedling. Leaves hairy, purple back. Pink	
Ditoltil (Donel) lan sasily, Bross, adlin leaves, lea sacinca, ville its vers.	.95
Titlibil dittill. (dient) billitat to b. ciliata, carving leaves, ied backet.	.85
dittil I billing (mary) b. company because, gray green venteu, wary.	1.00
* HATTIE WORDEN (Murphy) Leather-like foliage, bronze green. Pure white	1.00
INVOLUCRATA. Soft hairy lobed leaves, many branched. White flower clusters.	
INDIA-SPOTTED. India Species. Tall palmately-lobed, gray spotted. Flws. pink	
X LU WALTER. (Ziesenhenne) Bronzy-green foliage. Pink dotted red flowers.	1.00
LOBULATA. Tall erect, glossy, tomentose beneath. Pink clusters.	1.00
* LUCERNA. Tall cane. Silver spotted foliage. Huge red flower clusters	.95
X MARIE REED. (Schwerdtfeger) Leaves peltate, soft bronze. Dotted pink flws.	1.00
X MARGARITAE. (French hybrid) Hairy olive green leaves, bushy. Bright pink.	
METALLICA. Bushy, metalic sheen, purple veines. Bright pink, red-bearded	.85
* NELLIE BLY (Gray) Erect bushy, hairy, dark green red backed. Deep pink	.95
X PAUL BRUANT (French hybrid) Med. cerrate leaf, large clusters of pink	1.00
X PERLE LORRAINE (Lemoine) Low bushy, marbled-choc. foliage. Soft pink.	.85
* PRUNIFOLIA (Robinson) Hairy, olive-green, deep purple back. White bearded	
ROEZLI. Hall, shiny green leaves few branched. Deep pink in large clusters	.75
SCABRIDA. Thick stemmed, bushy, hairy bright green foliage. White flws	
SCHARFFI. Entirely hairy, bushy, tall, large clusters, bearded pink flws.	.85
* SHASTA (Robinson) Cane type. Smooth leaves. White flowers.	.75
* TEMPLINI Mutant, tall, green leaves mottled with autumn colors. Pink.	
* THURSTONI. Smooth thick leaves red beneath. Pale pink flowers.	.85
	95
* VESPERIA (Gray) Syn. imp. Margaritae, larger leaves. White bearded pink.	.85
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters.	1.00
VESPERIA (Gray) Syn. Imp. Margaritae, larger leaves. White bearded pink. VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers	1.00 .85
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters.	1.00
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters.	1.00
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers SMALL LEAVED FIBROUS	1.00
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers SMALL LEAVED FIBROUS ACUMINATA. Low, bushy, constant bloomer, pink to red flowers.	1.00 .85
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers. SMALL LEAVED FIBROUS ACUMINATA. Low, bushy, constant bloomer, pink to red flowers. X BAYERN (German origin) Similar to Prussen, silver dotted, Pink flws	1.00 .85 .50 .85
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers SMALL LEAVED FIBROUS ACUMINATA. Low, bushy, constant bloomer, pink to red flowers. X BAYERN (German origin) Similar to Prussen, silver dotted. Pink flws. X CORBEILLE de FEU. (Lemoine) Glossy green, few branched, coral-red flws.	1.00 .85 .50 .85 .75
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers SMALL LEAVED FIBROUS ACUMINATA. Low, bushy, constant bloomer, pink to red flowers. X BAYERN (German origin) Similar to Prussen, silver dotted. Pink flws X CORBEILLE de FEU. (Lemoine) Glossy green, few branched, coral-red flws. DREGEI. MacBethi Var. semi-tuberous bronzy green, purple veined. White	1.00 .85 .50 .85 .75 .75
VITIFOLIA Glossy green ivy shaped. Flowers pink, large clusters. ZEBRINA. Tall cane. Long leaves, gray markings along veins. White flowers SMALL LEAVED FIBROUS ACUMINATA. Low, bushy, constant bloomer, pink to red flowers X BAYERN (German origin) Similar to Prussen, silver dotted. Pink flws X CORBEILLE de FEU. (Lemoine) Glossy green, few branched, coral-red flws. DREGEI. MacBethi Var. semi-tuberous bronzy green, purple veined. White DOMINICAN Species. Low-growing, well branched flws. White margon centers.	1.00 .85 .50 .85 .75 .75

X FRED BROWN. (Ziesenhenne). Dark bronze leaves medium. Pink flowers X FREDDIE (Ziesenhenne). Hardy, large leaves with collar. (Robinson medal)	1.00
* FUSCOMACULATA. Syn. Rubella. Med. Chocolate mottled foliage. Pink X GLENDALE (Slocum). Star type. Distinctive vein markings. Pink to red	1.00
X HARVEY (Frey). Upright, compact, bronze edges. Many flowered pink X HELEN KRAUSS (Schwerdtfeger). Dk. grn., heavily marked brown. Dot. pink.	1.00
HEPATICA MACULATA. Brown mottled, medium. Pinkish white flowers X JIMMY DECKER. (Zieshenhenne). Thick dark green, hardy, light pink flws	1.00
X JOE HAYDEN (Zieshenhenne). Hardy bronze to black leaves. Tall pink flws X JOHN WILLIAMS. (Schwerdtfeger). Lettuce green leaves. Greenish white.	.95
MANICATA. Smooth leaves, coarse collar of deep red. Lacy soft pink flws	.95
NELUMBIFOLIA. Peltate leaves. Flowers white to pink. * NINA BALDWIN. (Ziehenhenne). Selected from 27S group. Tall pink flws.	1.00
PAGE THIRTEEN. Medium, foliage mottled with brown. Flws. pink	.85
X PALOMAR. (Bower). Thick ascending, white scurfy, tall pale pink flowers. X RICKY MINTER. (Turner). Hardy, bronze leaves spiralled & crested. Reddish	1.25
X RICINIFILIA. (English hybrid). Large bronzy lobed. Tall toft pink. X RICINIFOLIA FISCHER'S. Leaf stem covered with tufts, more pointed. Pink.	.95
X SANTA ROSA STAR. Heavy rhizome large deeply cut leaf. Large deep pink. X SACRAMENTO STAR. Bronze green red back. Tall chartreuse flowers.	1.50
X SKEEZAR. (Ziehenhenne). Medium silver leaves, red beneath. Whitish flws. X SILVER STAR (Frey). Medium. Heavily silvered. Greenish white. ABS medal.	1.00
STRIGILIOSA. Light green leaves, mottled chocolate. Light pink flws	1.00
X TEXAS STAR, (Schwerdtfeger). Dark green leaf, of unusual shape. X VERSCHAFFELTI. (Regel). Thick erect. Glossy green. Tall clear pink flws	1.00
X ZAIDA. (Schwerdtfeger). Medium. Thick bronze leaf, red beneath. Tall pink. SMALL LEAVED RHIZOMATOUS	1.00
X ABILENE (Schwerdtfeger). Compact, hairy silver foliage, red backed	
X BABY BROWN. (Zeisenhenne). Bronze roundish leaves, reddish-pink flws X BEL-AIR. (Schwerdtfeger). Compact, veins brownish, low, pink flowers	1.00
X BOW-ARRIOLA. (MacLanahan). Round leaves, dark markings, pink flowers. X BOW-NIGRA. (MacLanahan). Star-type, dk. grn. with heavy markings. Pink.	1.25
X BOW-CHANCEE. (MacLanahan). Smooth green leaf, choc. edges, pink flws. BOWERI. Miniature, cholocate margins edged with eyelashes, palest pink	1.00
X DEL-MAR. (Schwerdtfeger). Compact, light grn. with brown veins. Lacy pink. X EDITH M. (Introduced by Zug), Star type, dark markings, pink flowers	1.25
X ELOISE (Schwerdtfeger). Thick, soft, hairy leaves, bright pink flowers X EVANSIALIS (Longmore). Upright, compact, hairy leaves, bright pink flws.	1.50
HYDROCOTYLIFOLIA. Pennywort. Low, red backed leaved. Tall, deep pink. X MELROSE. (Schwerdtfeger). Brown tinted red backed foliage, hairy. Pink.	1.25
X MAPHIL. (Walker). Star type, chartreuse and brown markings. Flws. pink X MURIEL DAY. (Ziesenhenne). Soft hairy with silver markings. Whitish flws.	1.25
X REGEL. (Schwerdtfeger). Low, soft hairy, round leaved, pink flowers X RESEDA. (Zug). Low, bronze hairy yellowish veined, pink flowers	1.25
ROTUNDIFOLIA. Small round fluted light green foliage, compact, white flws. X RUTHANNE. (Schwerdtfeger). New. Slate-green rose tinted with silver	1.50
SCHULTZIANA. (Gray-green lobed. Low, comp. small white flws. (Needs rest). X SPAULDING. (Schwerdtfeger). Thick r'ndish levd heavily brn. veins. Pink.	1.25
X ZEE-BOWMAN. (Ziesenhenne). Compact silver markings red backed, whitish. X ZEE-BOWMAN. Similar to above with less silver and green backed leaves.	$1.00 \\ 1.00$
TRAILING AND HANGING BEGONIAS	
ALBA SCANDENS. Creeping, glossy leaves, lacy white flws. yellow stamens	$\frac{1.50}{1.00}$
X ALPHA GERE. (Schippy). Clinging, large glossy leaves, white flower cluster. BOWERI-MAJOR. Creeping rhizome, similar to Boweri. White flowers	.95
X CATALINA. (Shepherd). Low spreading, glossy, few hairs. Flws. pink to wh. CHIMBORAZO. Creeping rhizome. Peltate shiny yellow veined. Flws. lge. petals	85
CONVOLVUTRACAE. Clinging, lge. glossy leaves, huge lacy white flw. clusters. EPIPSILA. Drooping, leathery bronze foliage, white flowers.	.95
X E. O. ORPET. (Ziesenhenne). Satiny lvs, true hanger, salmony flwr clusters. X FLORENCE CARRELL. (Frey). Hardy hanger, beaut. salmon-pk. flw. clusters.	1.00
* FRUTISCANS. (German seed). Drooping, thick olive-green red backed. Pinkish GLABRA of the scandens group. Trailing, glossy leaves. White clusters.	1 .85 .95
GRANDMA-FREY. Unknown origin. Semp. Trailing, glossy bronze margin. Red. X LULANDI. (Woodriff). Semi-tuberous. Maple-like foliage, pink flowers	.75 .85
X MARJORIE DAW. (Shepherd). Hardy fibrous, large clusters of red flowers. MAZAE. Bronze with brown markings, drooping, dotted pink flowers.	.95
* MAZAE—dark, Variation of above. Dark green with markings	1.00 1.00
X JANET KAY. (Schwerdtfeger). Low creeping, metalic sheen, pink flws X PAULINE (Frey). Tender semi-tuberous, glossy. Brick red flower clusters,	1.25
SCANDENS. Creeping. larger leaved than B. Alba Scandens. SCHARFFIANA. Thick hairy foliage, red beneath. Drooping clusters of pink.	.95
SCHMIDTIANA. Low droop, lark red margins beneath, hairy leaves, sm. pinkisl STICHLEAF Light green edged with brn. markings. Detted red, pink flowers	a .75
